

# Public Bodies - Climate Change Reporting

This form is your annual report, required under the Climate Change (Public Bodies' Reporting Requirements) Regulations 2022 (as amended by the Climate Change (Public Bodies' Reporting Requirements) Amendment Regulations 2023).

This report relates to compliance with the climate change duties set out in Section 21 of the Climate Change Act 2021.

The climate change duties are:

- (1) *A public body, in performing its duties, must act in the way that it considers best to contribute to –*
- (a) *the meeting of the net zero emissions target by*
  - (b) *the meeting of any interim target;*
  - (c) *supporting the just transition principles and the climate justice principle;*
  - (d) *sustainable development, including the achievement of the United Nations sustainable development goals; and*
  - (e) *protecting and enhancing biodiversity, ecosystems and ecosystem services.*

Please complete this form and submit it to: [publicbodiesclimate@gov.im](mailto:publicbodiesclimate@gov.im) along with any supporting documents.

Public bodies' climate change reporting does **not** feed into the national GHG inventory.  
 It is intended to provide an overview of climate action within the public sector and ensure that the climate change duties are understood and being implemented.  
 The report therefore focusses on a small number of high-level indicators.  
 It is not a full-scale, detailed emissions report, which would need to be undertaken by a suitably experienced emissions auditor.

Guidance is included throughout and FAQs are included on a separate tab.  
 However, if you have any queries about how to complete this form please email: [publicbodiesclimate@gov.im](mailto:publicbodiesclimate@gov.im)

## **Supporting Information – Climate Change – Public Bodies – April 2022 – March 2023**

### Mullen Doway

- Construction of 4 blocks of flats (30 apartments) with high insulation levels
- No gas boilers – all electric heating
- The use of solar panels to light common areas in Mullen Doway
- EV charging points

### The Roundhouse

- Installation of a 124 panel solar array – largest on an IOM public building
- Installation of underfloor heating and an air source heat pump in the nursery
- Installation of 6 EV charging points

### Future plans

- With increased uptake in kerbside recycling, the Commissioners are considering implementing a fortnightly waste collection which would reduce the mileage of refuse vehicles.
- Improving the thermal efficiency of 28 properties at the Strang with the replacement of roofs, doors and windows.
- The refurbishment of 12 older persons bungalows replacing the gas boilers with air source heat pumps.
